

Call for Demonstrations

ICME 2003 will host one demonstration session on each day of the conference, July 7, 8 & 9, 2003. The goal of the demonstration sessions is to allow members of the multimedia community an opportunity to demonstrate working multimedia systems. This environment allows conference participants to view demonstrations firsthand in a manner not possible in a technical talk or poster session alone. We request proposals for demonstrations from anyone in the multimedia community, including researchers, academic institutions, research labs, and industry.

The demonstration sessions will be held in the exhibit hall / poster area of the conference. Each demonstration will be allotted a three-hour time slot (to coincide with the poster session timing). Each demonstration area will have a 4 foot by 8 foot posterboard as a backdrop with a table in front of the area with power available, if requested. We suggest that participants bring a poster to the session to support their demonstration. We would like for the demonstrations to be 10 to 30 minutes in length, and that the demonstration be presented several times during the three hour session. This will allow people the time to observe several demonstrations. Please visit the ICME 2003 website www.icme2003.com for the most current information on the demonstration sessions.

Demonstrations submitted by March 15, 2003 will be allotted 2 pdf pages on the CDROM proceedings; those demonstrations submitted after March 15, 2003 will not be given space in the proceedings.

Dates:

Proposal Submission Deadline (with space on the CDROM proceedings)	<i>Extended to April 18, 2003</i>
Notification of authors submitted by first deadline	March 28, 2003
CDROM ready material due	April 18, 2003
Second Deadline (without proceedings space)	May 16, 2003
Notification of authors submitted by second deadline	May 30, 2003

To submit a demonstration proposal to ICME 2003, please fill out the following application along with a two-page document describing your demonstration to CMS by March 15, 2003 (for space on the CDROM) or by May 15th (without space on the CDROM). *Please note: there is no fee for the demonstration space, but the person presenting the demonstration must register for the conference.*
