

Call for Industry Forums

IEEE International Conference on Multimedia and Expo (ICME) 2015

June 29 - July 3, 2015 – Turin, Italy

IEEE International Conference on Multimedia & Expo (ICME) has been the flagship multimedia conference sponsored by four IEEE societies (Communications, Computer, Circuits and Systems; and Signal Processing) since 2000.

Industry Forums aim to promote applied research and applications, and facilitate collaborations between industrial and academic members of the multimedia community.

Industry leaders are invited to propose and lead Industry Forums. The format is open and could include industry talks, demos and/or panel discussions. Topics are expected to cover timely and interesting, or even controversial issues in all areas of multimedia, including but not limited to, emerging applications or standards, industry trends, technical breakthroughs, user needs, and social aspects. The industry forum would provide a platform for participants to discuss recent technological advances and innovations, and/or their vision for the next 5~10 years in multimedia. A 1-page description of the proposed Industry Forum should be submitted to the Industry Program co-chairs (Giovanni Cordara, Thomas Stockhammer and Fabrizio Rovati) at icme2015sponsorship@gmail.com by **March 1, 2015**.

To facilitate the dissemination of information presented in the Industry Forums, technical papers may be optionally submitted to accepted industry forums, along with any supplemental materials such as presentation slides or other multimedia attachments (up to 10MB). Technical papers should not be longer than 4 pages and will be reviewed following the same procedure as workshop papers, where novelty, presentation quality and experimental validation will be considered. Only electronic submissions will be accepted through the CMT online system under the “Industry track”. Accepted papers must be registered and presented at the conference; otherwise they will not be included in the USB Proceedings or in the IEEE Xplore Library.

Industry paper submission deadline:	March 30, 2015
Paper decision notifications:	April 30, 2015
Camera ready submission deadline:	May 15, 2015
